An impressive Yacht. Full refit finished 2020. DUNJA is in every respect ready for a circumnavigation. A Solaris 76 Sloop, custom-made and refined down to the smallest detail. The deck-house and interior design is by the London studio Dick Young Designs. The vinylester and epoxy resins are assembled with a high-tech infusion construction technique, allowing perfect joining and unimaginable results: 20% weight reduction, 15% increase in strength to strain rate, lack of osmosis and de-lamination in time. A total refit was carried out in 2020 including new painting (oyster white from AWLgrip) of hull, Superstructure, Mast and Boom. All cushions and Sofas inside and in cockpit were renewed. Her condition is absolutely good, and any potential buyer will be impressed by viewing her.

Manufacturer Provided Description
Quality, sobriety and style. The reverse stern on waterlines designed by Doug Peterson, a result of long experience in the most demanding regattas. Solaris 76, custom-made and refined down to the smallest detail. The deck-house and interior design is by the London studio Dick Young Designs. Nothing is left to chance: the aesthetics combined to the choice of materials; the technical solutions aimed at sailing in absolute comfort. Sea distances will be covered speedily and in complete safety.
